Professional Summary

Full-stack Software Engineer experienced in manufacturing systems and client-facing delivery, covering requirements analysis, implementation, handover, and user support. Hands-on with PHP (CodeIgniter), TypeScript, React, Node.js, Docker, and SQL databases.

Experience

Software Engineer — Innotech Vietnam Oct 2025 – Aug 2026

- **Cao Phat — Paper Manufacturing Management & Traceability System**
  - Led Phase 3 delivery and collaborated across all phases for a production management system serving **200+ factory workers**, driving requirements gathering, feature implementation, and on-site user support.
  - Designed QR-code tracking and end-to-end traceability modules across raw materials, pallets, and finished goods to enable production history lookup and recall operations.
  - Redesigned production scheduling and resource allocation workflows; resolved critical production defects to stabilize core modules prior to system handover.
  - **Tech stack:** PHP (CodeIgniter), TypeScript, MySQL, Docker
- **Ellacy — Study Abroad Service Platform**
  - Developed core features including applicant tracking, application forms, campaign management, and lead tracking for an internal study-abroad management platform.
  - Built RESTful APIs and React interfaces, optimizing UX and code maintainability.
  - **Tech stack:** ReactJS, Node.js, Express.js, PostgreSQL

Software Engineer Intern — Innotech Vietnam Jul 2025 – Oct 2025

- Contributed to internal HRM and client systems by fixing bugs, implementing minor features, and maintaining Git workflows.

Skills

- **Programming Languages:** TypeScript, JavaScript, PHP, C#
- **Backend:** PHP (CodeIgniter), Node.js, Express.js, ASP.NET Core, RESTful APIs
- **Frontend:** ReactJS, HTML, CSS, React Native
- **Databases:** MySQL, PostgreSQL, SQL Server
- **Tools & Technologies:** Git, Docker, AI Coding Tools (Claude Code, Codex, Antigravity), QR/Barcode Integration

Education

University of Information Technology (VNU-HCM) Sep 2021 – Present

Bachelor's Degree in Software Engineering
